

Write in slope intercept form.

1) $8x + 6 = 2y$

2) $20 - 16x = 4y$

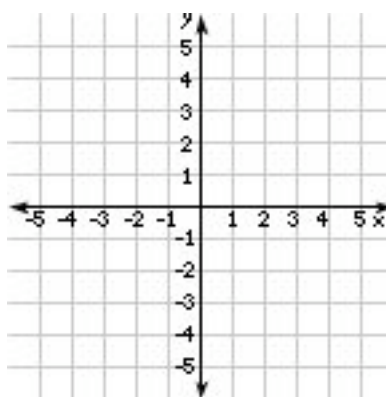

Write equation from picture.

3)

y-int @ 12 and x-int @ 6

4)

y-int @ 4 and x-int @ -2

5) Find the equation that goes through $(-2,6)$ and $(-4,-8)$.
