

Group 3

Homework

Name _____

Put in y-form and graph:

1) $4x - 2y = 14$

Graph

2) $y = -\frac{4}{3}x + 1$

3) Line #1 (-4,1) and (0,-6)

Line #2 (0,7) and (4,0)

Find the slopes of each line and determine if the lines are parallel.

Put in y-form and graph:

4) $4x + 5y = 10$
