

Practical Systems—Sport Sales
"Getting Ready for Algebra"

Name _____

Date _____ # _____

Show detailed work that helps you answer and validate each question below:

1) In 2004, sales of athletic/sports footwear were \$3,551 million more than sales of sports clothing. Together, total sales for these items were \$25,953 million.

Hint: Write two equations and solve for both variables.

a) What were the sales for sports clothing?

b) What were the sales for sports footwear?
